THE OCEANO NOTEBOOK

Let's save the future.

The Oceano collection is concrete evidence of the Castelli brand vision: the careful selection of materials that encourages the creative reuse and conservation of our planet. Each notebook represents a small, but significant and continuous action, for the preservation of our oceans and sea life.

INSPIRING COLOUR PALETTE

The bound notebooks feature a coordinating elastic closure band and bookmark. The cover is perfect for customization with blind debossing or foil.

FROM PLASTIC TO COLOURFUL FABRIC

The plastic that pollutes our oceans is recovered through an upcycle process and transformed into an eco-friendly polyester fabric cover, in a wide choice of colour variations.
